## Free Computer Classes for Students

**SPACE IS  
LIMITED!**

Register TODAY for  
Winter Courses!

[www.ysm.ca](http://www.ysm.ca)

## Course Options:

### Primary I (SK-Grade 1, once per week for 8 weeks)

This class uses fun activities to introduce children to computers.

### Primary II (Grades 2-3, once per week for 8 weeks)

Building on the Primary I course, students gain confidence and experience.

### Introductory (Grades 4-8, twice per week for 10 weeks)

**Our most popular course** - students learn essential computer skills. Successful graduates of this course receive a refurbished computer!

### Advanced (Grades 4 - 8, once per week for 9 weeks)

Students, take their computer abilities to the next level, learning out to make a digital presentation.

*\*Only open to Introductory Course Graduates*

### Internet (Grades 4-8, once per week for 8 weeks)

Students learn valuable internet skills and will design their own webpage.

*\*Only open to Advanced Course Graduates*

### Movie Making (Grades 5-8, twice per week for 6 weeks)

During this exciting media class, students learn all about movie making, script writing, filming, acting, directing, and video editing!

*\*Only open to Advanced Course Graduates*

**NEW COURSE!!**

### Animation Creation (Grades 6-8, once per week for 8 weeks)

**Discover the world of animation** using MAC laptops to create your own movie out of clay, paper and toys!

### Web Design (Grades 6-8, once per week for 9 weeks)

This course introduces students to web programming and teaches them how to build their very own e-commerce website!

*\*Only open to Internet Course Graduates*

### Business and Society (Grades 9-10, once per week for 9 weeks)

Students learn essential skills for school and the workplace.

### Introduction to Programming (High school) **NEW COURSE!!**

This new course covers the basics of 'Turing', for new programmers

Note to Parents:

**Please bring completed registration forms to the Computer Lab.**
